5 September 2014

Dear Sir / Madam

Way forward on final postponement applications and additional postponement applications in terms of certain requirements of GN893 – Minimum Emissions Standards (MES), for Sasol's operations in Secunda, Sasolburg and Ekandustria

Thank you to all stakeholders who participated in public meetings including focus group meetings, and who submitted comments during the second round of stakeholder engagement from April to June 2014 for Sasol's application process. This letter serves to inform stakeholders of the way forward regarding Sasol's applications.

Submission of final postponement applications

The final postponement applications for the applicable operations at Ekandustria, Sasolburg and Secunda, will be submitted to the National Air Quality Officer in September 2014. The finalised documents will be available on SRK's website and stakeholders will be informed of their availability, and the process for commenting in a further communication.

Additional postponement applications and public comment process

Since the conclusion of the public commenting process, the Minister of Environmental Affairs has formally notified Sasol that she will not consider its exemption applications, and has advised that postponement applications should be made instead. Sasol will now therefore submit its previous exemption applications as additional postponement applications. While the additional postponement applications contain materially the same content as the original exemption applications on which stakeholders previously commented, a further opportunity will be provided to stakeholders to comment on these as postponement applications. The comments received as part of the first and second rounds of stakeholder engagement have already been considered in these additional postponement applications.

The draft documents for the additional postponements applications will be made available on SRK's website. Stakeholders will be informed of their availability and arrangements regarding the public commenting process in a further communication.

Should you have any queries, please do not hesitate to contact Lysette Rothmann-Guest on Tel: +27(0)11 441 1111, Email: lrothmann-guest@srk.co.za. Thank you for your participation in this application process.

Yours faithfully,
SRK Consulting (South Africa) (Pty) Ltd
