COMMENTS (please use separate sheets if you wish)

I'm being confused because all your mines are situated in our community but still our community is less developed and neither our people are hired to work in your mines. We as Choma community (Pabonong) we are very disappointed that you have people to work in your mines while we are here standing in our own community where you guys benefit from. We lack infrastructure such as e.g. Electricity, water, school clinic and even shelter. We ought to work together since you guys benefit in our community. We plead with you guys when we go forward please consider our community as well. I can say more which I think you already know all I'm asking for is honesty and transparency.

Interim Comment

In terms of Section 38(8), 38(4) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Anglo American Platinum Limited

55 Marshall Street, Floor 11, Marshalltown, Johannesburg, 2001, South Africa

It is the intention of RPM to apply for the necessary environmental and waste authorisations and water use licence whilst amending the Der Brochen Mine's approved Consolidated EMPr and associated Environmental Authorisation (EA).

Rustenburg Platinum Mines Limited (RPM) appointed SRK Consulting (South Africa) (SRK) to conduct the integrated environmental authorisation (EA) for the amendment of the Der Brochen Mine Project which includes environmental and waste authorisations, water use licence along with infrastructure construction and development activities associated with the mine.

The Scoping Report was submitted in terms of the National Environmental Management Act (NEMA), 1998 and the National Environmental Management Waste Act (NEM:WA), 2008, and in terms of the Mineral And Petroleum Resources Development Act, 2002 (MPRDA) (as amended). In respect of listed activities in the NEMA 2014 EIA Regulations, as amended.

The Der Brochen Mine and its associated infrastructure is located approximately 25 km south-west of Steelpoort and 40 km west of Mashishing, within the Fetakgomo – Greater Tubatse Local Municipality in the Greater Sekhukhune District Municipality, Limpopo Province. It falls on the following farms and farm portions, Richmond 370 KT (Remaining extent, portions 1 and 2), St George 2 JT (Remaining extent, portions 1 and 2), Hermansdal 3 JT (Remaining extent), Hebron 5 JT (Remaining extent and portion 1), Helena 6 JT (Remaining extent and portion 3), Der Brochen 7 JT (Remaining extent), and Portion 7 of the farm Mareesburg 8 JT.

The development will include the construction of a buttress wall at the existing Helena TSF and the additional filter press plant at the existing Mototolo Concentrator Plant, two new decline shafts with three ventilation shafts per new decline shafts, a central ventilation complex to service both shafts, a Dense Medium Separation (DMS) Plant and a DMS Stockpile area with associated pollution control dams (PCDs), conversion of the existing Mototolo chrome plant to an inter-stage arrangement, additional Run of Mine stockpiles and associated silos, change houses and office complex to be located at each of the proposed decline shafts areas and additional linear infrastructure along with staff accommodation facilities to be located near the Der

Der Brochen Amendment

Brochen Dam.

Interim Comment

The SAHRA Archaeology, Palaeontology and Meteorites (APM) Unit notes that the development area contains numerous sites of archaeological significance (burial and graves sites, colonial feature, along with Middle Stone Age and Iron Age Sites) which have been recorded. The APM unit therefore requests that a Heritage Impact Assessment (HIA) be conducted, by a suitably qualified archaeologist, in terms of section 38(3) and 38(8) of the National Heritage Resources Act (NHRA), Act 25 of 1999 as part of the integrated EA process.

No palaeontological studies are required as the development area is of low and insignificant palaeontological significance according to the SAHRIS PalaeoMap.

The draft Environmental Impact Assessment (EIA) must be submitted with its appendices in order to make an informed decision. Further comments will be made when the requested documents have been attached to the case for review.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

Nokukhanya Khumalo
Heritage Officer
South African Heritage Resources Agency
