

Trees protect and give life. The officials from Food and Trees for Africa, SRK Consulting and Flexilube, visited Sicelo Primary School to donate over 1 125 trees. The trees were received by Ramphoko Maloko (principal) and the staff as well as the learners as part of Arbor Day celebrations on September 7. The school then donated some of the trees to community members. Maloka said they will follow up with the community to make sure they look after the trees. About 30 trees will be planted at the school, said the principal. Photo: Lazarus Dithagiso
